Hercules cryo-tek™ Compatible with ECR International Boilers

Passaic, New Jersey (August 10, 2011) – Hercules Chemical Company announces that *cryo-tek™ -100/AL for aluminum anti-freeze* is now listed by ECR International as compatible with all of ECR's aluminum high efficiency gas-fired water boilers for residential and commercial buildings.

ECR International™ is a designer and manufacturer of hydronic and HVAC equipment, and markets boilers under the brand names of Argo, Dunkirk, Pennco, and Utica Boilers.

Hercules cryo-tek -100/AL aluminum anti-freeze is available at plumbing wholesalers nationwide through OateySCS.

Hercules is a manufacturer and marketer of a full line of chemicals and other specialty products for the plumbing and heating industry for almost 100 years.
